## The Manor Collection

# Where elegance meets timeless craftsmanship.

**The signature diamond pattern of the Manor collection sets the tone for a story defined by exclusivity, warmth, and refined detail. It's a surface you don't just see - you feel.**

A tactile rhythm that invites the hand and catches the eye. Designer Jakob Kamper has infused Manor with a sense of quiet luxury, where craftsmanship takes center stage and no detail is too small. This is design with presence, personality and purpose.

Each knob and handle in this range features the distinctive diamond patterned surface which, in addition to assuring an exceptionally good handle, presents an exclusive expression that is further highlighted by the attention to detail on both knobs and handles.

### Available in 5 finishes

The range is available in five finishes: Gold, Antique Brass, Inox Look, Black and Matt Bronze. Each colour brings something different to the interior design, but a trait they all share is the truly elegant expression they convey. Use Manor to add a dash of warmth to an industrial kitchen, to highlight the deep elegance of a rural kitchen, or to achieve another effect entirely.

## ABOUT THE DESIGNER - JAKOB KAMPER

Jakob Kamper is the man behind the design studio Kamper Form. He graduated as an industrial designer at Denmark's Design School (now part of The Royal Danish Academy of Fine Arts Schools of Architecture, Design and Conservation) in 2001 and his design studio is located in Ry. Kamper Form's designs are based on the idea that form should be a living thing, make an impression and suit the interiors of today and tomorrow, and his designs have proved popular, especially at Skagerak, since Kamper Form often works in wood. The collaboration with furnipart has resulted in a large number of handles and knobs in the regular collection.
