

PINELLO INSIDE INTERNAL PULL-OUT

Full-extension system without front attachment for base units

USE OF SPACE

CLEAR OVERVIEW

DIRECT ACCESS

Open the front panel and slide out the internal pull-out.

Pinello Inside is the slim base unit pull-out with a surprising amount of storage space. Thanks to thin-walled metal shelves, the internal pull-out makes maximum use of its 150mm width. Each shelf has a removable silicone mat that prevents the contents from sliding around. Since Pinello Inside does not have a front panel, it can be retrofitted easily at any time. It makes particularly good use of space as a pull-out for cleaning materials alongside base-mounted bins or in the cleaning cupboard.

PRODUCT

PEKA PINELLO INSIDE	CODE
PEKA PINELLO INSIDE LEFT WHITE	954270
PEKA PINELLO INSIDE RIGHT WHITE	954274
PEKA PINELLO INSIDE LEFT ANTHRACITE	954272

PEKA PINELLO SPACER WHITE	954280
PEKA PINELLO SPACER ANTHRACITE	954282

Optional spacer only required when hinge clearance is required

FEATURES AND BENEFITS

- Ideal as a pull-out for cleaning materials alongside base-mounted bins or in the cleaning cupboard
- Even bottles can be stored securely thanks to the high blind front
- Contents don't slip thanks to removable non-slip silicone mats
- Closed shelf bases stop bottles from toppling and small items from falling through
- Optional accessories allowing customised use of shelf space: include a bottle rack and magnetic dividers

TECHNICAL CHARACTERISTICS

- Complete set with runners can be easily retrofitted anywhere
- Built-in Softclose mechanism ensures that the unit can be closed smoothly and silently
- Can be pulled out smoothly thanks to high-quality concealed runners
- Mounted on one side wall and base, making it suitable for all unit heights, widths and depths
- No front adjustment necessary
- Maintenance-free technology

TECHNICAL DATA
