# *Introducing the new Manor Long Handle – a sophisticated take on industrial style.*

---

**This collection is ideal for interior designs that require extended length, suitable for both horizontal and vertical applications.**

Each knob and handle in this range features the distinctive diamond patterned surface which, in addition to assuring an exceptionally good handle, presents an exclusive expression that is further highlighted by the attention to detail on both knobs and handles.

It is actually the details on the knobs and handles that elevates these designs from the industrial genre, positioning them in a narrative of something more machined and refined – which is precisely what Jakob Kamper, the designer, intended.

---

### ABOUT THE DESIGNER - JAKOB KAMPER

Jakob Kamper is the man behind the design studio Kamper Form. He graduated as an industrial designer at Denmark's Design School (now part of The Royal Danish Academy of Fine Arts Schools of Architecture, Design and Conservation) in 2001 and his design studio is located in Ry. Kamper Form's designs are based on the idea that form should be a living thing, make an impression and suit the interiors of today and tomorrow, and his designs have proved popular, especially at Skagerak, since Kamper Form often works in wood. The collaboration with furnipart has resulted in a large number of handles and knobs in the regular collection.

## FURNIPART MANOR GOLD

Designer: Kamper Form

Material: Zamac / Long (Aluminium)

Centre distance: 128 / 192 / 640mm  
Length: 190 / 254 / 694mm
